# REQUEST FOR A CURRICULUM CHANGE

Valdosta State University

**Select Area of Change:**

Core Curriculum     
  Senior Curriculum     
  Graduate Curriculum     
  Other Curriculum

Specify: Area A,B,C,D,F

**Current Catalog Page Number:**

<http://catalog.valdosta.edu/undergraduate/academic-programs/arts/art/ba-art/>

**Proposed Effective Date for Curriculum Change:**

(Month/Year): Fall 2018

**Degree & Program Name:**

(e.g., BFA, Art): BA, Art

**Present Requirements:**

This liberal arts degree with a major in art enables students to develop the range of knowledge, skills, and competencies expected of those holding a liberal arts baccalaureate degree in art. This degree differs from the Bachelor of Fine Arts degrees in that it allows the flexibility to design a comprehensive liberal arts curriculum that may include a minor outside of art.

Candidates for this degree must meet all requirements set by the College of Arts and Sciences and the College of the Arts, including a foreign language sequence (9 hours or 3 courses, see catalog requirements). In addition to the required art studio and art history requirements (54 total hours), the BA degree offers flexibility in course work with 6-15 hours of electives in art studio or art history and 6-15 hours in guided electives outside of art (6 of the hours outside of art must be comprised of course work at the 3000 or 4000 level). These two areas should total 21 hours of credit.

Ultimately, the Bachelor of Arts degree with a major in art is a versatile degree for art students interested in foreign languages and in investigating subjects outside of art.

The BA with a major in art may be an appropriate selection for a transfer student or a change of major. Students may be able to utilize some of those hours already completed. The BA degree may be the appropriate degree choice for students who are interested in preparing for advanced specialized degree programs.

This is a 120-hour degree program.

**Proposed Requirements (Underline changes after printing this form:**

This liberal arts degree with a major in art enables students to develop the range of knowledge, skills, and competencies expected of those holding a liberal arts baccalaureate degree in art. This degree differs from the Bachelor of Fine Arts degrees in that it allows the flexibility to design a comprehensive liberal arts curriculum that may include a minor outside of art.

Candidates for this degree must meet all requirements set by the College of Arts and Sciences and the College of the Arts, including a foreign language sequence (6 hours or 2 courses, see catalog requirements). In addition to the required art studio and art history requirements (57 total hours), the BA degree offers flexibility in course work with 6-18 hours of electives in art studio or art history and 6-18 hours in guided electives outside of art (6 of the hours outside of art must be comprised of course work at the 3000 or 4000 level). These two areas should total 24 hours of credit.

Ultimately, the Bachelor of Arts degree with a major in art is an excellent choice for students who want to craft an interdisciplinary path in order to create unique perspectives into making, presenting, and engaging with visual culture. This degree may also be an appropriate selection for a transfer student or a change of major, as the interest that motivated the earlier course of study can be used to enhance this versatile degree.

The BA degree is an appropriate degree choice for students who are interested in preparing for a variety of advanced specialized degree programs.

This is a 120-hour degree program.

**Selected Educational Outcomes and Competencies**

**Justification:**

Select one or more of the following to indicate why the requested change will be beneficial, giving your justification. Include and/or append relevant supporting data.

- Improve student learning outcomes:** The Bachelor of Arts degree in Art is a versatile major that allows each student to incorporate of a variety of interdisciplinary experiences into their artistic research interests. While the degree is enriched by students learning to both understand others and express themselves in a different language, currently this experience occupies 38% of the potential electives for this degree outside of Art. This focus not only limits the possibility of students incorporating other fields of study into their degree experience, it also makes the completion of a full minor (18hrs) more challenging.
- Adopting current best practice(s) in field:** While the number of hours of modern foreign language for

BA in Art tends to vary by state, none of the other comprehensive regional universities in the USG system that offer the degree require more than six hours. This change also allows the program to more effectively transition incoming transfer students, who represent an increasing percentage of the students served by the program. Additionally, this change aligns the BA in Art program with the BA in Music program in the College of the Arts at VSU, which currently requires 6 hours of modern foreign language.

Meeting mandates of state/federal/outside accrediting agencies: This change remains in keeping with NASAD requirements.

Other: By allowing for more flexibility and personalization with the electives outside of Art, it is anticipated that more students will select this program option and, thus, increase the number of BA graduates, which has been cited as a low degree producing program. This would ultimately result in more Art students undertaking a foreign language and meaningfully engaging with another culture, highlighting the diversity of perspectives that exemplify the BA degree.

**Source of Data to Support Suggested Change:**

Indirect measures: SOIs, student, employer, or alumni surveys, etc. During the advising process, many students have expressed unwillingness to pursue the BA degree because of the extensive language requirements.

Direct measures: Materials collected and evaluated for program assessment purposes (tests, portfolios, specific assignments, etc.) The BA degree in Art has been regularly cited as a low-producing degree.

**Plan for assessing the effectiveness of the change in meeting program's learning outcomes (i.e., how do these changes fit within the current program assessment plan and what sorts of data will be collected and evaluated to determine if these changes are meeting stated program outcomes?).**

**Data Sources:**

Indirect measures: SOIs; student, employer, or alumni surveys, etc.

Direct measures: Materials collected and evaluated for program assessment purposes (tests, portfolios, specific assignments, etc.) Departmental program reports will continue to monitor the number of students selecting the BA and departmental assessments will evaluate the ongoing quality of artistic production and analysis by BA students.

**Lecture Hours:** 1

**Lab Hours:** 3

**Credit Hours:** 2

**Proposed Course Description:** (Follow current catalogue format and include prerequisites or co-requisites, cross listings, special requirements for admission or grading. A description of fifty words or fewer is preferred.) Corequisite or Prerequisite: CHEM 3601. Experiments to illustrate the principles and research techniques in biochemistry and molecular biology.

**Justification:** Select one or more of the following to indicate why the requested change will be beneficial, giving your justification. Include and/or append relevant supporting data.

Improving student learning outcomes: Currently CHEM 3601L is a required course only for chemistry majors. It is rarely taken by biology majors, as it does not fulfill the upper division biology requirements. However, current trends in biomedical industry and science require hands-on knowledge of biochemical techniques, which is provided by this course.

Adopting current best practice(s) in field: Biochemistry laboratory is required for biology students in many schools.

Office Hours: Thr 8:00-10:00 am or by appointment

Spring 2017  
Office: BC 3075  
Phone: (229) 333 5452

**Corequisite or Prerequisite:** CHEM 3601 (Biochemistry I) with grade C or better

**Laboratory:**

CHEM3601L	Thursday	1:00 - 4:50	BC 3067
-----------	----------	-------------	---------

Students requesting classroom accommodations or modifications due to a documented disability must contact the Access Office for Students with Disabilities located in the Farber Hall. The phone numbers are 245-2498 (V/VP) and 219-1348 (TTY). Students must also discuss this need with the professor at the beginning of the semester.

**Materials Required:**

**Laboratory Manual:** **Experiments in Biochemistry (A Hands-on Approach)** by Shawn O. Farrell and Lynn E. Taylor, Thomson Brooks/Cole, 2006.

**Laboratory supplies:** Safety goggles or safety glasses with side-shields.  
Paper or cloth towels, scientific calculator, laboratory notebook.

**Optional:** lab coat

**Course Content:** A number of laboratory techniques common in biochemistry will be covered. Most of the experiments in the laboratory manual will be completed. Topics will include buffer solutions and their preparation, purification of proteins and their characterization by such techniques as spectroscopy, various chromatographic techniques and electrophoresis, kinetic experiments, preparation and characterization of nucleic acids and polymerase chain reaction. Data collection and analysis and record keeping will also be covered. Some experiments may be modified from that in the text, with separate handouts regarding laboratory modifications or substitutions distributed as appropriate. The order of the experiments will be announced in separate handout.

**Attendance Policy:** Attendance is mandatory. We work in pairs, so make up is next to impossible. Missed labs will receive no credit. No credit will be awarded unless the student actually performs a given laboratory (you cannot just do the report using someone else's data). According to the VSU policy, **failure to attend 20% of class-time (3 labs) without formally withdrawing from the class will result in a grade of "F"**.

**Lab Hours:** Due to the nature of biochemical experiment, some labs will require longer than scheduled hours. You cannot leave the lab until the experiment is completed. You will be notified in advance if certain lab requires longer than scheduled hours.

**Lab Notebook:** Laboratory notebook is a permanent, primary record of laboratory observations. Pages are numbered and never torn out. Your notebook contains double pages, original for your permanent record and copy for the instructor. **Periodic table put underneath the page you are writing on prevents you from making copies on multiple pages.** All the entries should be dated and labeled with experiment title and

number. Never erase or white-out anything – cross it neatly if it is wrong, and continue with the right entry. Data copied from other sources should be clearly labeled (For ex.: Lab manual: ... Jane's notebook: ..., Prelab lecture: ..., etc.). *If experiment is done in groups (pairs), each member's notebook should contain all the experimental data. All the data necessary for further calculations, all the calculations and all the conclusions should be neatly, in logical order entered in your notebook. What is not there – does not exist!* Notebook alone should be sufficient for you to get the results of any of your experiments, without the lab report that you turned in.

**Grades and Rules:** Grades will be based on your reports and a written lab final given during the final week.

Grading of reports will be based on the following:

1. Regular lab report, including prelab questions, notebook pages, results, calculations, additional problems and any additional assignments given for this lab will be graded on a 100 point scale.
2. Prelab (if any) for the current experiment is due at the beginning of the lab period (10-15pt.).
3. Copies of your notebook pages are collected at the end of the lab period (10 pt.).
3. All laboratory reports are due one week after a lab is finished, at the beginning of the lab. I will not remind you of this every week. It is your responsibility to hand these to me in a timely fashion. Any extension of due dates has to be requested from the instructor.
4. Late lab reports: the maximum possible score is 75 points, unless extension is granted by instructor.
5. *No late reports will be accepted after the corresponding report is graded and returned to students.*
6. Lab reports that are never turned in get a zero.
7. The last possible date to turn in lab reports (except for lab 12) is by 1 pm on the last day of the lab, April 27.
8. The last day to turn in the lab report for exp. 12 is before the final, Friday, May 3, 2:45 pm.

**Regular laboratory reports**

(report sheets, notebook sheets, questions and problems) 100 points each

**Final purification table** 41 points

**Exp. 12 report** 200 points

**Lab final** 200 points

<b>Grading Scale:</b>	<b>A</b>	<b>90-100%</b>	(note: rounding off to the whole number)
	<b>B</b>	<b>80-89%</b>	
	<b>C</b>	<b>70-79%</b>	
	<b>D</b>	<b>60-69%</b>	
	<b>F</b>	<b>&lt; 60%</b>	

The instructor reserves the right to modify this scale; however, the scale will not be made more stringent than that stated above, but only relaxed, if necessary.

**It is imperative that you read the whole chapter of the Manual ahead of time and be prepared to begin working when class begins. Quizzes will be added if it appears that students are coming to class unprepared.**

**IMPORTANT DATES:**

Midterm	March 2
Last day of classes	May 1 (Monday)

**Reading:** The required textbook is "Lehninger Principles of Biochemistry", by David L. Nelson and Michael M. Cox, 6<sup>th</sup> Edition, W. H. Freeman, and Co., 2013. The optional material is: **The Absolute, Ultimate Guide to Lehninger Principles of Biochemistry, Sixth Edition** by Marcy Osgood and Karen Ocorr, ISBN 1429294760 (Study Guide and Solution Manual). Sometime I will use for lectures material from other sources; therefore, taking notes is advisable.

**Other required supplies:** scientific calculator

**Homework:** Homework is given at the beginning of every chapter and is due the next meeting after the chapter is finished. Homework grades are based on complete or selective check. Besides, *students are expected to work as many after chapter problems as they can from recommended textbook.*

**Exams:** Four tests will be given. Each test will focus on the material covered since the last test (for the first one – since the beginning). There will be no make-up tests. In case of known time conflict, discuss it in advance; in case of emergency/sickness, the missed test is your drop grade.

**Final:** Comprehensive open-book 2 hours final will be given. It cannot be dropped.

**Term Paper and Presentation.** You will have to prepare a 5-10 page paper and give a 20 minutes presentation on a biochemistry topic. You can pick up your own topic (with my approval) or ask me for one. Presentations are scheduled for April 24 - May 1. Detailed instructions will be given later.

**Grading:** Grade will be based on the results of all exams, homework, and paper presentation, namely:

Tests (4 X 100 pts each, lowest dropped)	300 pts
Final exam	200 pts
Term paper & presentation	100 pts
Homework	140 pts (maximum)
<b>Total</b>	<b>740 pts (maximum)</b>

<b>Grading Scale:</b>	<b>A</b>	<b>≥87%</b>
	<b>B</b>	<b>≥75%</b>
	<b>C</b>	<b>≥63%</b>
	<b>D</b>	<b>≥51%</b>
	<b>F</b>	<b>&lt;51%</b>

**Attendance:** Attendance is mandatory at all class meetings. In accordance with VSU policy, failure to attend 20% of class meeting will result in a grade of "F".

**Additional Information:** Please, keep your cell phones on "silent" or "off" during the class. Except for an emergency, do not expect me to call you back. Come to my office to talk, or e-mail me. All information about class, due dates, etc. is given in class or through VSU email. *Make sure to check it daily!*

**Students requesting classroom accommodations or modifications due to a documented disability must contact the Access Office for Students with Disabilities located in the Farber Hall. The phone numbers are 245-2498 (V/VP) and 219-1348 (TTY).**

## Attachment: Course Outcomes

Successful Students will:

1. Be able to calculate free energy and equilibrium constants for biologically important reactions.
2. Explain the metabolic role of glycolysis, Krebs cycle, fatty acids oxidation, oxidative phosphorylation as energy-yielding pathways; be able to describe the mechanisms of their regulation.
3. Demonstrate energetic and mechanistic basics for chemiosmotic theory, describe underlying experiments.
4. Connect the origin of various metabolic disorders to specific biochemical deficiencies/imbalance.
5. Trace the energy transformation in photosynthesis, be able to describe light and dark processes, show the difference between C3 and C4 plants and evolutionary implications of this difference.
6. Discriminate essential and non-essential amino acids, distribute amino acids in families based on biochemical precursors.
7. Trace the pathways of biosynthesis for nucleotides, lipids and related molecules, describe the coenzymes involved and relate them to antimicrobial and anticancer drugs.

*Catalog Description*

An in-depth study of current content standards, methods and assessment strategies for teaching middle grades and secondary mathematics. Candidates must tailor their course assignments and experiences to their specific grade levels and certification/content field.

*Instructional Strategies Used*

Online instruction

*Disability Accommodations*

If a student has a documented and declared disability, reasonable accommodations will be provided when requested by the student according to the recommendations of your institution's Disabled Student Services office.

*Course Objectives*

By the end of the course, students will be able to:

1. Develop an understanding of current middle grades and secondary content standards.
2. Develop an understanding of NCTM recommendations and how they apply to the middle grade and/or secondary mathematics classroom.
3. Develop an understanding of differing assessment strategies that can be used to assess student knowledge, especially middle grade and/or secondary mathematics students' content knowledge.

4. Develop an understanding of how research can be applied to enhance student knowledge, especially middle grade and/or secondary mathematics students' content knowledge.

*Subject Matter Content:*

1. Trends and issues in teaching mathematics (primarily middle and secondary mathematics).
  - a. National Council of Teachers of Mathematics (NCTM) recommendations
  - b. Georgia Standards of Excellence
  - c. Assessment
  - d. Other
2. Trends and issues in mathematics assessment.
  - a. NCTM Assessment Book (rubrics, etc.)
  - b. NAEP; TIMSS; PISA
3. Trends and issues in middle grades and secondary mathematics research

*Required Course Activities*

1. Complete all readings and related assignments, includes diversity issues, on time.
2. Complete an assessment project.
3. Write a research paper on a mathematics topic.
4. Write reflection papers based on class readings.

*Student Performance Requirements*

1. Complete all assignments. [obj. 1]
2. Assessment project. [obj. 2]
3. Research Paper. [obj. 3]
4. Reflections papers. [obj. 4]

**Course Policies**

**Required**

*Texts*

Late Assignments

See assignments for policy.

Missed Assignments

No make-ups will be given unless discussed in advance with the instructor.

Academic Honesty

Students are expected to abide by your institution's Student Conduct Code and Regulations regarding academic integrity. Academic misconduct such as cheating and plagiarism will be reported to the Office of Judicial Affairs. Students caught violating the Student Conduct Code and Regulations regarding academic integrity will receive a 0 for the assignment and an F for the course.

Must hold a bachelor's degree from a regionally-accredited institution in an appropriate major. Any major may apply. Minimum cumulative undergraduate GPA of 2.75 on a 4.0 Scale. GPA will be calculated on all attempted undergraduate coursework in which a letter grade was awarded.

Passing scores on the GACE Program Admission Assessment or GACE Basic Skills Assessment or a qualifying exemption. Qualifying exemptions on the ACT, GRE, and SAT or a valid level 4 or higher Induction, Professional, Advanced Professional, or Lead Professional teaching certificate, leadership certificate, service field certificate, or Life certificate:

**Proposed Requirements:** (highlight changes after printing)

Must hold a bachelor's degree from a regionally-accredited institution. Any major may apply.

1. Must have a minimum cumulative undergraduate GPA of 2.75 on a 4.0 scale OR meet requirements for one of the following alternative pathways:
  - Alternative Pathway 1: Have a minimum GPA of 3.0 on a 4.0 scale in all coursework attempted while registered as an upper-division undergraduate student working towards a bachelor's degree (i.e. 3000 and 4000 level coursework); or
  - Alternative Pathway 2: Have a minimum GPA of 3.0 on a 4.0 scale in all graduate coursework (must have completed at least 6 credit hours of graduate work in which a letter grade was awarded); or
  - Alternative Pathway 3: Have earned a cumulative undergraduate GPA between 2.50 and 2.74 on a 4.0 scale ten or more years prior to admission.

Passing scores on the GACE Program Admission Assessment or GACE Basic Skills Assessment or a qualifying exemption. Applicants may submit a copy of the score report received when they complete the exam.

- To document a GACE Program Admission Assessment exemption for state certification requirements, applicants may submit official

- SAT - 1000 (Verbal plus Quantitative)
  - ACT - 43 (English plus Math)
  - GRE - 297 (Verbal plus Quantitative)
- OR 1030 (Verbal plus Quantitative) for tests prior to August 2011

A written statement (250-500 words) describing your plans to pursue a degree in school counseling. Please see the linked prompts for more guidance.

Candidates will respond to two case studies using the instructions provided in the link in the left column and address the questions at the end of each case study.

- Minimum GRE Requirements:
- 286 overall (Verbal score plus either Quantitative score or Analytical score) with a Verbal score no less than 146.
- Minimum MAT Requirement: 380

Recommendations from professionals familiar with your professional and/or academic background.

The Psychology and Counseling Department prefers recommendations come from current or former Psychology professors who have had you in class.

The form must be completed and signed by the student/applicant.

This form must be received prior to enrollment, NOT prior to admission.

Applicants who are currently enrolled, and those who attended VSU in the past, are not required to resubmit the Medical Form

**Guiding Principles (DEPOSITS)**

*(Adapted from the Georgia Systemic Teacher Education Program Accomplished Teacher Framework)*

Dispositions Principle: Productive dispositions positively affect learners, professional growth, and the learning environment.

Equity Principle: All learners deserve high expectations and support.

Process Principle: Learning is a lifelong process of development and growth.

Ownership Principle: Professionals are committed to and assume responsibility for the future of their disciplines.

Support Principle: Successful engagement in the process of learning requires collaboration among multiple partners.

Impact Principle: Effective practice yields evidence of learning.

Technology Principle: Technology facilitates teaching, learning, community-building, and resource acquisition.

Standards Principle: Evidence-based standards systematically guide professional preparation and development.

**InTASC Model Core Teacher Standards\***

*(To be used for all teacher preparation program courses. Identify those that apply specifically to this course.)*

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

### **ACCESS STATEMENT**

Students with disabilities who are experiencing barriers in this course may contact the Access Office for assistance in determining and implementing reasonable accommodations. The Access Office is located in Farbar Hall. The phone numbers are 229-245-2498 (V), 229-375-5871 (VP) and 229-219-1348 (TTY). For more information, please visit VSU's Access Office or email: [access@valdosta.edu](mailto:access@valdosta.edu).

### **TITLE IX STATEMENT**

Valdosta State University (VSU) is committed to creating a diverse and inclusive work and learning environment free from discrimination and harassment. VSU is dedicated to creating an environment where all campus community members feel valued, respected, and included. Valdosta State University prohibits discrimination on the basis of race, color, ethnicity, national origin, sex (including pregnancy status, sexual harassment and sexual violence), sexual orientation, gender identity, religion, age, national origin, disability, genetic information, or veteran status, in the University's programs and activities as required by applicable laws and regulations such as Title IX. The individual designated with responsibility for coordination of compliance efforts and receipt of inquiries concerning nondiscrimination policies is the University's Title IX Coordinator: Maggie Viverette, Director of the Office of Social Equity, [titleix@valdosta.edu](mailto:titleix@valdosta.edu), 1208 N. Patterson St., Valdosta State University, Valdosta, Georgia 31608, 229-333-5463.

### **STUDENT OPINION OF INSTRUCTION**

At the end of the term, all students will be expected to complete an online Student Opinion of Instruction survey (SOI) that will be available on BANNER. Students will receive an email notification through their VSU email address when the SOI is available (generally at least one week before the end of the term). SOI responses are anonymous, and instructors will be able to view only a summary of all responses two weeks after they have submitted final grades.

**Guiding Principles (DEPOSITS)**

*(Adapted from the Georgia Systemic Teacher Education Program Accomplished Teacher Framework)*

Dispositions Principle: Productive dispositions positively affect learners, professional growth, and the learning environment.

Equity Principle: All learners deserve high expectations and support.

Process Principle: Learning is a lifelong process of development and growth.

Ownership Principle: Professionals are committed to and assume responsibility for the future of their disciplines.

Support Principle: Successful engagement in the process of learning requires collaboration among multiple partners.

Impact Principle: Effective practice yields evidence of learning.

Technology Principle: Technology facilitates teaching, learning, community-building, and resource acquisition.

Standards Principle: Evidence-based standards systematically guide professional preparation and development.

**InTASC Model Core Teacher Standards\***

*(To be used for all teacher preparation program courses. Identify those that apply specifically to this course.)*

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

## **COURSE DESCRIPTION**

Theoretical constructs and practical considerations in programming for students with disabilities from preschool through secondary and post-secondary levels. Emphasis is placed on the transition planning process, including transition assessment and development of post-school goals, to develop a transition plan based on student's strengths and interests.

## **REQUIRED TEXTBOOKS / RESOURCE MATERIALS**

Wehman, P. (2009). *Life beyond the classroom: Transition strategies for young people with disabilities* (5<sup>th</sup> ed.). Baltimore, MD: Paul Brookes Publishing Co.

## **COURSE OBJECTIVES** (Show alignment to InTASC Model Core Teacher Standards for all educator preparation courses).

Candidates will:

CO 1: Demonstrate an understanding of state and federal transition requirements in the Individuals with Disabilities Education Act and the best practices in fulfilling those requirements (InTASC 9).

CO 2: Describe a variety of transition assessments that target career, recreation, and independent living skills and appropriately select assessments based on the needs and interests of the student (InTASC 1, 2, 6).

- CO 3: Demonstrate an understanding of how cultural differences influence planning for student outcomes and develop transition plans that reflect sensitivity to individual student differences (InTASC 2, 7).
- CO 4: Identify community resources and services needed in the transition process and evaluate the agency's scope of service relative to best practices outlined in this course (InTASC 3, 9, 10).
- CO 5: Write measurable post-school goals for a student and annual IEP goals aligned to student's desired outcomes (InTASC 1, 2).
- CO 6: Demonstrate an understanding of effective strategies to increase student involvement in transition planning (InTASC 7)
- CO 7: Articulate the importance of post-school outcome data and describe how that data will be collected and used to improve services for students (InTASC 6)

### **COURSE ACTIVITIES/ASSIGNMENTS/REQUIREMENTS**

1. Activities: Students are expected to participate in online class discussions, pose and respond to questions, and complete all assignments in a timely manner

2. Assignments:

Preparation: Students are expected to (a) read the assigned chapters/readings and be prepared to participate in online discussions and/or ask questions about the information presented or issues related to the assigned topic, and (b) complete assigned class activities. Although this course is being delivered on line, students will keep in mind that this course is traditionally taught in a 3-hour class period once per week, with expectations that extra time outside of class will be needed to complete readings and other assignments.

Attendance: Our class week will run from Tuesday through midnight on Monday. Students should be prepared to log in to the class a minimum of two times per week to respond to/read responses to discussion questions, respond to classmates' postings, and retrieve assignments.

Discussion questions: Students will be required to post responses to discussion questions on designated weeks. Responses will be evaluated based upon the quality of the postings. A rubric will be provided that details the point structure.

Papers: Students will write two papers and one article review on assigned topics. Detailed guidelines for this assignment will be provided.

Projects: Students will complete four projects: a brochure, a curriculum review, an assessment review, and a transition IEP. Detailed guidelines for these assignments will be provided.

3. Requirements

**The instructor reserves the right to adjust assignments as needed, based on class performance and progression through the course content.**

<b>Task</b>	<b>Individual Value</b>	<b>Point Value</b>
<b>Discussion Boards</b>

\*\* Please note: Late assignments will be accepted up to 2 days late at a 10% penalty per day late. After 2 days late, the assignment will not be accepted and a grade of zero will be awarded for the assignment. There are no points for late discussion questions.

### **ATTENDANCE POLICY**

Students are expected to participate in class each week as indicated throughout the semester. Organization and time management are critical components for success in online classes. Candidates must be disciplined and also need to be diligent about keeping up with scheduled assignments and due dates.

### **PROFESSIONALISM**

As a teacher candidate, you are expected to conduct yourself in the professional educator role as defined by the Georgia Professional Standards Commission Code of Ethics for Educators. You will be provided with a copy of the Code of Ethics for Educators, which can be found on the following URL <http://www.gapsc.com/Ethics/NEthics.asp>. Failure to follow the Code of Ethics will result in disciplinary actions through the College of Education and Human Services Professional Improvement Plan process.

**Justification:** (select one or more of the following to indicate why the requested change will be beneficial, giving your justification. Please include and/or append relevant supporting data.)

Improving student learning outcomes: Candidates need more time to learn how to plan to teach students with significant disabilities, as well as how to task analyze discrimination tasks and chained tasks. They also need more time to practice the instructional procedures with feedback. Currently in this course, candidates learn three different instructional strategies (Constant Time Delay, Systems of Least Prompts, and Most to Least Prompts). More time is needed for them to learn how to plan the lesson and how to implement these instructional procedures, with feedback from the instructor, in order to become competent in using these procedures. Splitting the class so that in the 2-credit hour class they learn how to plan to teach

discrimination tasks and chained tasks, they learn how to conduct task analyses, they learn about the different instructional strategies (including data collection for strategy, and they learn about the different strategies, will help them master this content. Then, a new 1-credit hour practicum class will be added that will be taught in the following semester, so that the candidates will have a full semester to practice implementing the strategies, collecting data on student performance, and making instructional decisions for their students while receiving feedback from their instructor. See attached program assessment data.

- Adopting current best practice(s) in field:
- Meeting Mandates of State/Federal/Outside Accrediting Agencies:
- Other:

**Plans for assessing the effectiveness of the course:** SEAC 5530 currently includes three program assessments: an early field experience during which candidates demonstrate their ability to plan to teach a discrimination task (program assessment for lesson planning) and implement constant time delay (early field experience); and also implement either the system of least prompts (LTM) or most to least prompts (MTL) with their learner on a chained task.

## **COURSE DESCRIPTION**

Prerequisite: Candidate must be in third regular semester of enrollment in MAT program. Graded "Satisfactory" or "Incomplete." A required non-credit course for teacher candidates pursuing initial certification in special education general or adapted curriculum which focuses on requirements for edTPA, resources and grading rubrics, and registration and submission instructions.

## **REQUIRED TEXTBOOKS**

The *edTPA Special Education Assessment Handbook* and *Making Good Choices in Special Education* support guide are provided in the course shell.

Register and submit payment (\$300.00) for edTPA assessment.

## **COURSE OBJECTIVES:**

Candidates will successfully submit and earn a score on the edTPA assessment.

## **ACTIVITIES/ASSIGNMENTS/REQUIREMENTS**

1. Register for edTPA assessment.
2. Complete Task 1: Planning for Instruction and Assessment; Task 2: Instructing and Engaging the Focus Learner; and Task 3: Assessing Learning; following the rubrics for each task.
3. Submit edTPA assessment to Pearson online platform as specified.

## **EVALUATION**

In order to earn a "Satisfactory" and be eligible to graduate from the MAT special education program, candidates must earn a score on their edTPA assessment. In order to be eligible for a Standard Professional Certificate, candidates must earn a minimum score of 38. Candidates whose edTPA assessment could not be scored and who do not earn a score will earn an "Incomplete" and must re-submit to earn a passing score.

## **ATTENDANCE POLICY**

Candidates are expected to follow the suggested due dates for edTPA task completion and submit their assessment by the specified due date.

**InTASC Model Core Teacher Standards\***

*(To be used for all teacher preparation program courses. Identify those that apply specifically to this course.)*

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

## **COURSE DESCRIPTION**

Introduction to major issues in the field of special education. Emphasis is placed on understanding the characteristics and etiologies of individuals with diverse needs and on identifying the qualities of home, school, and community environments that support these individuals in achieving their potential.

## **REQUIRED TEXTBOOKS / RESOURCE MATERIALS**

Hallahan, D. P., Kauffman, J. M. & Pullen, P. C. (2015). *Exceptional learners: An introduction to special education* (13<sup>th</sup> ed). NJ: Pearson.

**This class will be using the eText version of this book. (This version is a basic version without any enhancements).**

**COURSE OBJECTIVES** (*Show alignment to InTASC Model Core Teacher Standards for all educator preparation courses*).

The teacher candidate will:

1. Define legal and ethical issues in definition and identification procedures of students with exceptional learning needs, including individuals from culturally and/or linguistically diverse backgrounds, including identification criteria, labeling issues, current incidence and prevalence figures. (InTASC S1, S2, S9; EDL 1.1, 1.2)
2. Compare and contrast current and historical perspectives of variations in beliefs, traditions, and values across cultures within society and the effects of these relationships among children, families, and schools. (InTASC S2; DL 1.2, 1.3)
3. Identify similarities and differences among the cognitive, physical, cultural, social, and emotional needs of individuals with and without exceptional learning needs. (InTASC S1, S2; DL 1.2, 1.3 )

4. Identify differential characteristics of individuals with exceptionalities, including levels of support related to their needs. (InTASC S1, S2, S3; DL 1.2, 1.3)
5. Identify the effects exceptional condition(s) may have on an individual's life and the educational and vocational implications of characteristics of various exceptionalities. (InTASC S1, S2, S3; EDL 1.1, 1.2)
6. Identify the characteristics and effects of the environmental milieu of the child and the family, including socioeconomic level, abuse / neglect, and substance abuse. (InTASC S1, S2, S3)
7. Identify and compare instructional methods and strategies to provide access to the general curriculum, including the embedding of functional skills. (InTASC S2, S6, S7, S8 )
8. Identify and discuss the development, planning, and implementation of individualized programs from birth through postsecondary transition in collaboration with individuals with exceptionalities, families, and school and community personnel. (InTASC S1, S2, S9, S10; EDL 1.1, 1.2 )

### **COURSE ACTIVITIES/ASSIGNMENTS/REQUIREMENTS**

1. Activities: Students are expected to participate in class discussions and complete all assignments by the indicated due date.

#### General Requirements:

- Documentation of illness or emergency conditions is required.
- Each **student is responsible** for all information on the course syllabus.

2. Assignments:

Preparation/Participation: Students are expected to (a) read the assigned chapters/readings and be prepared to participate in discussions and/or ask questions about the information presented or issues related to the assigned topic, and (b) complete assigned class activities.

Discussion Board: Students will respond to Discussion Question(s) found on the discussion board. Detailed instructions and the grading rubric will be provided for successful completion of this assignment.

Quizzes: Students will complete fourteen, online open-book quizzes covering designated chapters in the textbook. Detailed instructions will be provided to facilitate successful completion of this assignment.

Dropbox Assignments: Students will complete the IRIS Modules during the designated weeks and submit those into dropbox assignments.

Movie Reflection: Students will choose a movie from the list posted in Blazeview and watch the movie following the guidelines provided in the rubric. Detailed instructions and the assignment rubric will be provided to facilitate successful completion of this assignment.

#### Final Project:

- a. Students will choose one of three options for completing a final project. Detailed instructions and rubrics for the different options will be provided to facilitate successful completion of this assignment.
- b. Reflection: Students will complete a comprehensive written reflection on their final project. Detailed instructions and rubrics for the different options will be provided to facilitate successful completion of this assignment.

### 3. Requirements:

Task	Individual Value	Point Value
Discussions	8@20 pts. each	160
Quizzes	14 @ 10 pts. each	140
Movie Reflection	1 @ 30 pts.	30
Dropbox Assignments	4 @ 20 pts. each	80
Final Project, Part a.	1 @ 50 pts.	50
Final Project, Part b. Reflection	1 @ 50 pts.	50
<b>Total</b>		<b>510</b>

**Please note:** All assignments must be completed and submitted in order to be eligible to receive an A in the course. Assignments that are not turned in by their due date will result in point reductions.

### Grading Scale:

93 – 100% = A  
 83 – 92% = B  
 73 – 82% = C  
 63 – 72% = D  
 62% and below = F

### ATTENDANCE POLICY

Students are expected to follow the syllabus regarding online discussions and submissions. Because students are being prepared to accept professional duties and responsibilities, attendance requirements are viewed as critical to developing professionalism. Students will be expected to login at least twice during each week of class.

**Late submissions of assignments within less than three days from their due date will result in a 10% reduction of the total points earned for the assignment. Submissions later than three days from the due date will not be accepted and thus will not earn any points.**

Please note that while this course is being taught in an online format, it is not a correspondence course in which you can access the course content and complete/submit assignments at any time between now and the end of the semester. In order to be successful in this class, you must submit assignments in the timeframe designated for specific assignments. Assignments have designated locations and times for

submission and will not be accepted via email. Refer to Course Schedule/Calendar for assignment due dates.

Students should back up work to avoid problems with computers, servers, etc. Maintain a copy of all work. Contact IT Help for problems related to technology. Note the Blazeview Maintenance Schedule and be proactive regarding preparation and submission of assignments.

**Please Note:** your instructor may extend due dates to the class in the event of weather-related emergencies or school closures, or for other unforeseeable events that would affect assignment submissions.

## **PROFESSIONALISM**

As a teacher candidate, you are expected to conduct yourself in the professional educator role as defined by the Georgia Professional Standards Commission Code of Ethics for Educators. You will be provided with a copy of the Code of Ethics for Educators which can be found on the following URL <http://www.gapsc.com/Rules/Current/Ethics/505-6-.01.pdf>. Failure to follow the Code of Ethics will result in disciplinary actions through the College of Education and Human Services Professional Improvement Plan Process.

**All assignments should conform to the professional standards expected of university students.**

You may earn the maximum number of points for all assignments and activities, contingent upon the knowledge, originality, and quality demonstrated in your work. Demonstrated mastery of formal Standard English is required in all facets of the course. Therefore, evaluation of all written work will be made based upon both content and mechanics.

- Spelling, punctuation, syntax, grammatical, and typographical errors will result in point deductions from the total score, regardless of the point value of the assignment.
- All assignments prepared outside of class must be produced using a word processing computer program (Microsoft Word is best), 12-point font, and double-spaced (unless otherwise noted) and include the teacher candidate's name, course number and section, and date. This includes any e-mail assignments sent to the instructor.
- All assignments must be the original work of the student submitting the work.

All assignments must be completed by the student during the current semester and not submitted to another instructor to fulfill requirements for any other course. References and citations (using APA 6th edition format) are required when referring to the work of others.

### **TITLE IX STATEMENT**

Valdosta State University (VSU) is committed to creating a diverse and inclusive work and learning environment free from discrimination and harassment. VSU is dedicated to creating an environment where all campus community members feel valued, respected, and included. Valdosta State University prohibits discrimination on the basis of race, color, ethnicity, national origin, sex (including pregnancy status, sexual harassment and sexual violence), sexual orientation, gender identity, religion, age, national origin, disability, genetic information, or veteran status, in the University's programs and activities as required by applicable laws and regulations such as Title IX. The individual designated with responsibility for coordination of compliance efforts and receipt of inquiries concerning nondiscrimination policies is the University's Title IX Coordinator: Maggie Viverette, Director of the Office of Social Equity, [titleix@valdosta.edu](mailto:titleix@valdosta.edu), 1208 N. Patterson St., Valdosta State University, Valdosta, Georgia 31608, 229-333-5463.

### **ACCESS STATEMENT**

Students with disabilities who are experiencing barriers in this course may contact the Access Office for assistance in determining and implementing reasonable accommodations. The Access Office is located in Farbar Hall. The phone numbers are 229-245-2498 (V), 229-375-5871 (VP) and 229-219-1348 (TTY). For more information, please visit VSU's Access Office or email: [access@valdosta.edu](mailto:access@valdosta.edu).

### **STUDENT OPINION OF INSTRUCTION**

At the end of the term, all students will be expected to complete an online Student Opinion of Instruction survey (SOI) that will be available on BANNER. Students will receive an email notification through their VSU email address when the SOI is available (generally at least one week before the end of the term). SOI responses are anonymous, and instructors will be able to view only a summary of all responses two weeks after they have submitted final grades. While instructors will not be able to view individual responses or to access any of the responses until after final grade submission, they will be able to see which students have or have not completed their SOIs, and student compliance may be considered in the determination of the final course grade. These compliance and non-compliance

reports will not be available once instructors are able to access the results. Complete information about the SOIs, including how to access the survey and a timetable for this term is available at <http://www.valdosta.edu/academic/OnlineSOIPilotProject.shtml>.

**Justification:** (select one or more of the following to indicate why the requested change will be beneficial, giving your justification. Include and/or append relevant supporting data.)

- Improving Student Learning Outcomes
- Adopting Current Best Practice(s) in Field
- Meeting Mandates of State/Federal/Outside Accrediting Agencies
- Other Current admission criteria penalize disproportionately harshly applicants with low GPA in their undergraduate work which may be 10-20 years old. Meanwhile, these candidates have proven themselves as good professionals, have matured, and developed appropriate dispositions.

**Source of Data to Support Suggested Change:**

- Indirect measures: SOIs, student, employer, or alumni surveys, etc.
- Direct measures: Materials collected and evaluated for program assessment purposes (tests, portfolios, specific assignments, etc.) **80% of the applicants for the MCL MAT programs were turned down on the basis of low GPA, some of which was more than 15 years old.**

**Plan for assessing the effectiveness of the change in meeting program's learning outcomes (i.e., how do these changes fit within the current program assessment plan and what sorts of data will be collected and evaluated to determine if these changes are meeting stated program outcomes?).**
