

# VALDOSTA STATE UNIVERSITY BIOLOGY DEPARTMENT ECOLOGY & EVOLUTION SYLLABUS BIOL 3250 – Fall 2024

*Instructor Name: Emily Rose, Ph.D.*

*E-mail address: [erose@valdosta.edu](mailto:erose@valdosta.edu)*

*Office Location: Bailey Science Building 2211*

*Office Hours: Monday 10am-12pm & 2:30-3:30pm, Thursday 9:30am -11:30pm and by appointment, email for arranging virtual meetings with Zoom [link](#)*

*Lecture location: Bailey Science Center 2202*

*Lecture times: Monday, Wednesday & Friday 9:00-9:50am*

*Lab location: Bailey Science Center 1043*

*Lab Sections/times: Friday 10am-12:50pm*

## Course Overview:

BIOL 3250. Ecology and Evolution. 4 Hours. Prerequisites: BIOL 1107, 1107L, BIOL 1108, 1108L, and BIOL 3200. An introduction to major topics in ecology and evolution, including population, community, and ecosystem ecology; Darwinian theory of evolution through natural selection; microevolution and macroevolution. Computer and field labs will provide exposure to both evolutionary theory and field ecology.

## Required Materials:

Textbook: Ecology: Evolution, Application, Integration 2<sup>nd</sup> Edition by David Krohne, Oxford University Press

Excel- Provided by VSU through your email account

Online simulations through SIMBIO for the lab- will be provided for free this semester

## Course Format:

We will be meeting face-to-face for lecture and labs. We will have several labs that will include fieldwork outside. Students will be required to have access to Excel either on their own machines, in a computer lab or by remote accessing the lab computers to complete assignments. If there are changes to the course format you will be notified by Dr. Rose via email and announcements on BlazeVIEW, in addition to the official University emails. If you are unable to attend class in person due to illness, you are responsible for contacting Dr. Rose directly to make arrangements. Online accommodations will only be made for students who have VSU approval.

## Course Learning Objectives:

This course covers a wide range of topics within the realm of ecology and evolution and allows student to develop their own ideas through a peer-reviewed research grant writing process. The laboratory portion offers students the opportunity to get directly involved with ecological experimentation and techniques, while diving into the evolutionary theory using a variety of simulations and activities.

By the end of the semester, each student will:

- 1) Develop a better understanding of ecological and evolutionary concepts and cultivate critical thinking skills through the scientific method.
- 2) Operate scientific instruments and equipment commonly used in biological experimentation.
- 3) Understand the basis of evolutionary ecology theory and its application.
- 4) Translate analyzed data into meaningful scientific results, synthesize a literature review, develop their own questions/hypotheses.
- 5) Compose a research grant and build upon their scientific writing skills.
- 6) Work on their ability to convey ideas and educate others while giving presentations.

These course objectives are aimed to fulfill the VSU General Educational outcomes 3,4,5 and 7. This course's set of learning objectives support the outcomes 1, 2 and 5 of the [VSU Selected Educational Outcomes for the B.S. Degree in Biology](#).

## Grade Determination:

Assessment	Points	Grading Scale:
Participation in Lab and Lecture	30	≥ 900 pts, A 800-899, B 700-799, C 600-699, D <600 pts, F
Research Grant (100), Final edits (20), 1 <sup>st</sup> meeting papers (10), Annotated Bibliography (30)	160	
Exam 1,2,3 (100pts each), Final/Exam 4 (150 pts)	450	
Lecture and Laboratory Assignments	160	
Lab Midterm and Lab Final (100pts each)	200	
<b>Total Points</b>	<b>1000</b>	

**Participation:** Points for participation will be given based on your preparedness and your contribution to the lecture and lab activities. This includes participating in the group efforts to collect the data and work as a team member during the lab assignments. I will be taking attendance for all of our class meetings and points will be deducted for students who are chronically late or missing class. Points will be deducted if you come to class or lab late. If you are not prepared for lab or are disrespectful to your fellow classmates or professor you will lose participation points.

**Lecture and Lab assignments:** For most lab exercises, you will be required to perform graphing/data analysis and/or writing assignments. Some of these you will complete in lab while others will require additional work after lab. These assignments will be explained in detail during lab, and due at the beginning of the following class meeting unless otherwise noted. Instructions on how to turn in the assignment will be explained when the assignment is given (primarily submitted via the Blazeview assignments link, in the SIMBIO platform, completed in the google folder, etc.). I reserve the right to adjust the evaluation criteria in the event of extenuating circumstances. There will be a few readings for

lecture that require you to contribute discussion questions prior to meeting for class. Students who miss more than three labs will forfeit all Laboratory Assignment points.

**Exams:** All lecture exams 1,2,3 will be closed note and administered in person, starting when lecture begins for the hour and 15 minutes. The Final/Exam 4 will be administered on-line and will be open note. Lab exams will be in person and will be open note but only for the 3 hours of lab.

**Make-Up Work:** Late assignments will be not be accepted and make up assignments will be at the sole discretion of the professor. These assignments may or may not exactly duplicate the original and will not entitle other students to the same alternatives since they may not have experienced the same situations.

**Lecture & Lab Policies:** Guidelines for your safety and the safety of those around you.

1. No eating or drinking in the lecture or lab.
2. Use hand sanitizer when you enter, wash your hands after the exercises for lab.
3. Know where emergency/first aid equipment and disposal receptacles are for lab. Any injuries should be reported to me immediately!
4. Please dress appropriately for field days. I recommend comfortable closed-toed shoes or water shoes if appropriate for the specific lab, always have drinking water, and some will want to bring sunscreen and/or bug repellent. In addition, fieldtrips are often hot or cold (depending on the time of semester) and may require walking to a destination, so you should dress accordingly.
5. Please respect those around you and wear a mask when in the classroom, computer lab or when within 6 feet outside during the lab.
6. Although we are using a lot of technology for our class, please avoid using your phones or computers for anything else during our class time. We have a lot of focus on and juggle so you need to be 100% committed and focused to the course during your 5.5 hours with me each week. **Recordings of the Dr. Rose's lectures are not permitted without her permission.**

**How to Succeed in this Course:**

- To be able to recreate graphs/figures, concepts, and examples from lecture on the exams I highly recommend that you recopy your notes/Dr. Rose's ppts into a well-organized and concise study guide. You should also be practicing and interpreting any of the equations that we have covered in the course to make sure you understand the concepts in addition to the plugging in of numbers.
- Although lab exams are open note, you will need to trouble shoot and execute all of the skills we have learned during the labs so take good notes and practice the activities before the lab exams. You will want to review what we did, why we did it, how we did it and what we found in lab.
- Get ahead!!! The deadlines for every assignment this semester are listed in the syllabus calendar so there is no reason to turn in assignments late. Start assignments early to get feedback on them before they are due. Do not blame Blazeview for taking too long when loading your file at midnight.
- Ask questions during class or come to office hours. If you cannot make it to office hours, please email Dr. Rose and schedule a meeting for when you are free.

## Course Policies:

### **Non-Discrimination and Title IX Statement**

Valdosta State University (VSU) upholds all applicable laws and policies regarding discrimination on the basis of race, color, sex (including sexual harassment and pregnancy), sexual orientation, gender identity or expression, national origin, religion, age, veteran status, political affiliation, or disability. The University prohibits specific forms of behavior that violate Title IX of the Education Amendments of 1972. Title IX of the Education Amendments of 1972 prohibits discrimination on the basis of sex in education programs and activities that receive federal funding. VSU considers sex discrimination in any form to be a serious offense. Title IX refers to all forms of sex discrimination committed against others, including but not limited to: sexual harassment, sexual assault, sexual misconduct, and sexual violence by other employees, students or third parties and gender inequity or unfair treatment based on an individual's sex/gender. The designated Title IX Coordinator for VSU is Ms. Selenseia Holmes. To view the full policy or to report an incident visit: <https://www.valdosta.edu/administration/student-affairs/title-ix/>. Dr. Rose's course is a safe space for students where you will be treated with respect and are expected to respect others. Individuals of all ages, backgrounds, beliefs, ethnicities, genders, gender identities, gender expressions, national origins, religious affiliations, sexual orientations, ability – and other visible and nonvisible differences, are welcome and deserve to be treated equally.

### **Academic Integrity Statement**

Cheating, plagiarism, copying and any other behavior that is contrary to University standards of behavior will not be tolerated (Academic Honesty Policies and Procedures). Students caught violating any aspect of the Academic Integrity Code will be penalized in all cases. Penalty ranges from "0" on an assignment to "F" for the course without regard to a student's accumulated points. Students may also face expulsion. It is the student's responsibility to become familiar with the policies of the university regarding academic integrity and to avoid violating such policies.

VSU's Academic Student Conduct Code states that "no student shall engage in plagiarism, which is presenting the words or ideas of another person as if they were the student's own." Students are not allowed to turn in assignments from other students or their own assignments from previous semesters. Content generated by an Artificial Intelligence third-party service or site (AI-generated content) is another form of plagiarism. If you are unsure about whether something may be plagiarism or another form of academic dishonesty, please reach out to me as soon as possible. By taking this course, you agree that all required course work may be subject to submission for textual similarity review to Turnitin, a tool within BlazeVIEW. For more information on the use of Turnitin at VSU see Turnitin for Students.

### **Students with Disabilities**

Students with disabilities who are experiencing barriers in this course may contact the Access Office (<https://www.valdosta.edu/student/disability/>) for assistance in determining and implementing reasonable accommodations. The Access Office is located in University Center Room 4136 Entrance 5. The phone numbers are 229-245-2498 (V), 229-375-5871. For more information, please visit VSU's Access Office or email: [access@valdosta.edu](mailto:access@valdosta.edu). To request reasonable accommodations for pregnancy and childbirth, contact Ms. Myia Miller, Title IX Compliance Officer, at [maburden@valdosta.edu](mailto:maburden@valdosta.edu). Please note, you will be required to provide documentation from an appropriately licensed medical professional indicating the requested accommodations are medically necessary.

## **Additional Academic Support**

The Academic Support Center (ASC) provides unlimited, in-person, free peer tutoring in core courses such as math, English/writing, sciences, social sciences, and languages. We also offer 8 hours of free online tutoring via Tutor.com (8 hours per student, available 24/7). Click the Free Tutoring link in any Blazeview course to make appointments. Please drop by our space in Odum Library, 2nd floor, or call 229-333-7570, email [asc@valdosta.edu](mailto:asc@valdosta.edu), or visit the website [www.valdosta.edu/asc](http://www.valdosta.edu/asc) for more information. We will have a PAL for the course that will offer biweekly sessions for extra help with the course material. The meeting times will be voted on by the class and posted on the course's BlazeView page.

## **Experiential Learning Statement**

This course includes an Experiential Learning opportunity carefully designed to allow students to explore concepts, skills, and principles beyond the traditional classroom, lab, or studio. Students will have opportunities to make connections across campus, collaborate with others, and apply and synthesize what they have studied in the course. In addition to the experience, students reflect on what they have learned during and at the completion of the course/activity to deepen their learning. Reflections help students transfer skills and concepts to different contexts including 'real-world' settings. For more information about Experiential Learning please visit <https://qep.valdosta.edu/experiential-learning/>.

## **Mental Health Awareness**

As a student, you may experience a range of challenges that can interfere with learning, such as strained or violent relationships, death and loss, increased anxiety, substance use, feeling down, difficulty concentrating and/or lack of motivation. These mental health concerns or stressful events may diminish your academic performance and/or reduce your ability to participate in daily activities. VSU services are available and treatment does work. You can learn more about confidential mental health services available on campus at: <http://www.valdosta.edu/student/student-services/counseling-center/>. 24 hour emergency help is also available through the University Police at 229-259-5555 who will contact on-call counselors or appropriate resources for support.

## **Student Opinion of Instruction Statement**

At the end of the term, all students will be expected to complete an online Student Opinion of Instruction survey (SOI) that will be available through SmartEvals. Students will receive an email notification through their VSU email address when the SOI is available (generally at least one week before the end of the term). SOI responses are anonymous to instructors/administrators, and they will be able to access results only after they have submitted final grades. Before final grade submission, instructors will not be able to see any responses, but they can see the percentage of students who have or have not completed their SOIs. While instructors will not be able to see student names, an automated system will send a reminder email to those who have yet to complete their SOIs. Students who withdraw or drop a course will also be sent invitations to complete the Dropped Course Survey. Complete information about the SOIs, including how to access the survey, is available on the [SOI Procedures webpage](#).

## Fall 2024- Dr. Rose's Ecology & Evolution course (BIO3250)

**Note:** The professor reserves the right to make changes to this syllabus as necessary.

	<b>Monday Lecture</b>	<b>Wednesday Lecture</b>	<b>Friday Lecture</b>	<b>Friday LAB</b>	<b>Research Grant</b>	<b>Assignments</b>
<b>1</b>	<b>8/19</b> Syllabus	<b>8/21</b> CHAPTER 1: Intro to ECOLOGY	<b>8/23</b> CHAPTER 4 Intro to BIOMES	Lab: Introductions and Discuss grant proposal	Start searching for publications to read	<b>In-class come up with a list of grant ideas and find papers to read.</b>
<b>2</b>	<b>8/26</b> CHAPTER 5 Intro to Aquatic Ecosystems	<b>8/28</b> CHAPTER 16: What is a species & phylogenetics?	<b>8/30</b> CHAPTER 16: What is a species & phylogenetics?	Lab 1: Experimental Design & Excel	Start narrowing down ideas about topics and read papers	<b>Lab 1 HW Practice excel graphing assignment due on BV Tuesday Midnight (10)</b>
<b>3</b>	<b>9/2</b> <b>Labor Day</b> <b>No classes</b>	<b>9/4</b> CHAPTER 16: Species Diversity- Community Ecology	<b>9/6</b> CHAPTER 15: Ecological Succession	Lab 2: Community Ecology analyses	Come up with possible research projects ideas and question to propose	<b>Lab 2 HW Benthic Diversity Data due on BV Tuesday Midnight (10)</b>
<b>4</b>	<b>9/9</b> <b>LECTURE</b> <b>EXAM 1:</b> <b>Biomes and</b> <b>Ecosystems</b>	<b>9/11</b> <i>First Grant Proposal meetings</i>	<b>9/13</b> Leave for lab field trip at 9am	Lab 3: Species Diversity Fieldwork- Field trip to Freedom Park for tree succession	<b>Must have 4 papers uploaded with ideas for grant before meeting (10)</b>	<b>Lab 3 HW Stats and graphs from class data due on BV Tuesday Midnight (10)</b>
<b>5</b>	<b>9/16</b> CHAPTER 10: Life History Strategies	<b>9/18</b> Finish CH 10	<b>9/20</b> CHAPTER 8: Demography	Lab 4: Mark/Recapture & Spatial distributions of populations	Find 10 papers to help support your grant question, start Annotated Bibliography	<b>Lab 4 HW Mark/Recap Tuesday Midnight on BV (10)</b>
<b>6</b>	<b>9/23</b> CHAPTER 9: What limits population growth?	<b>9/25</b> CHAPTER 12: Coevolution- Predator & Prey	<b>9/27</b> CHAPTER 13: Coevolution- Mutualism	Lab 5: Life History and Field trip to the cemetery	Write Annotated Bibliography for 10 papers	<b>Lab 5 HW Tables and Life history graph on BV Tuesday Midnight (10)</b>
<b>7</b>	<b>9/30</b> CHAPTER 11: Competition	<b>10/2</b> Finish CH 11	<b>10/4</b> Finish lectures and review for exams next week.	Lab 6: Isle Royale: Predator/Prey dynamics (Simbio)	Create a paper outline for the grant to start building paper	<b>Isle Royale Simbio postlab questions by end of lab (5)</b>

8	<b>10/7</b> <b>LECTURE</b> <b>EXAM 2:</b> <b>Ecological</b> <b>Parameters</b>	<b>10/9</b> Review for lab practical and prep annotated bibs	<b>10/11</b> No lecture- lab midterm this week	<b>LAB</b> <b>MIDTERM</b> <b>(on labs 1-6)</b>	<b>Annotated</b> <b>Bib DUE</b> <b>midnight</b> <b>10/20 prior</b> <b>to Lab 8 (30)</b>	
9	<b>10/14</b> <b>FALL</b> <b>BREAK</b>	<b>10/16</b> CHAPTER 2 (I): Darwin and Evolutionary mechanisms Intro to Evolutionary Analyses (HWE)	<b>10/18</b> Finish CH 2 (I)	Lab 7: Darwin's Finches: Selection and mutations (Simbio)	Finish intro, work on proposed project sections using Figure	<b>Do SimBio post lab</b> <b>questions by end of</b> <b>lab (5) and Lab 7</b> <b>HW graphing (10)</b> <b>by Tuesday</b> <b>Midnight</b>
10	<b>10/21</b> CHAPTER 2 (II): Intro to Evolutionary Analyses (HWE)	<b>10/23</b> Finish CH 2 (II)	<b>10/25</b> CHAPTER 6: Behavioral Ecology- Heritability	Lab 8: <i>Second Grant</i> <i>Proposal</i> <i>meetings</i> and come up with Animal Behavioral Experiment	See Dr. Rose for help or edits. Finish first "overview" and final "conclusions " paragraphs.	<b>Create Figure 1 for</b> <b>grant!
