Qualitative Comments (including recommendations for program changes):

- I have enjoyed having a VSU student counselor this year and would enjoy supporting another VSU student at any time.
- I like how several students recently have maintained two sites for their internship classes throughout the whole school year (instead of one site in the fall and one in the spring). This gives them and us continuity. They get to see a school year from start to finish at two separate sites.
- I would really like to see professional development from the university on not only supervision of students, but on what you all are teaching them as far as techniques for conducting individual and small group sessions (interviewing skill, etc.). This would help ensure consistency between what you're teaching them to do and what they practice doing here in the schools.
