10. Locate, interpret and use technical documentation.

Words of Comfort: If the material in this course seems confusing, please don't worry. Previous students have compared this to learning a new language. A feeling akin to "culture shock" is common at first. Keep going and do your best. You typically will have a "eureka" moment somewhere along the line, when you will say, "Oh! Now I get it!" Keep the faith until then ☺.

Assignment Synopses

Assignments will be submitted using either the Discussion Board or the Assignment Tool within WebCT Vista.

See WebCT Vista for submission instructions for each assignment.

Meet the Class, Library Thing, and Diverse Users details will be posted in WebCT Vista.

Midterm Quiz will be available on October 1 and due on October 8.

Culminating Quiz, which is cumulative, will be available on December 3 and due on December 10.

Cataloging Project will include simulated "hands on" experience with copy cataloging, original cataloging, and record maintenance.

Mini-Paper: You will read, synopsize, and respond to three *peer-reviewed* sources on a topic within the realm of information organization, broadly defined. The topic will be one of your choice, subject to instructor approval. *You are required to use specialized library-science databases to find your three sources.* Instructions will be posted in WebCT.

Attendance

This is a Web-delivered course, with no required face-to-face meetings and no required synchronous online times. Some materials will be presented via Live Classroom sessions. Students who cannot participate “live” will study the archives.

Technical Requirements

All assignments must be submitted using computer programs that are compatible with VSU supported products. For word processed documents, MS Word is the preferred format. *If you are using Office 2007, use the Save As command and save for opening by Office 2003.* If you are using a lower version of WordPerfect or some other word processor, save your documents in Rich Text Format (rtf).

When reading instructions for your assignments, notice whether the instructions say to paste your response into a message box or to use a file attachment. Also notice whether the instructions say to choose Reply or to create a new message.

When the directions say to paste into a WebCT Vista message box, *compose your response in your word processor first.* This will help avoid the agony of being “timed out” and losing your work.

Grammar, punctuation, and spelling count. Use spell check.

WebCT Vista

If you are a new WebCT Vista user, go to the WebCT Vista help pages at <http://www.valdosta.edu/vista/>. On the right margin are “Self Help” links. View the “Getting Started” tutorial first. Then return to the Vista page and login using your BlazeNet email ID and password.

WebCT Vista cont.

You must follow the directions at <http://www.valdosta.edu/vista/> for setting up your computer.

Successful use of WebCT Vista requires that you:

- disable pop-up blockers
- have a very particular version of Java.

The most current version of Java is **not** the one that works with WebCT Vista.

Once you have the correct version of Java installed, you must disable automatic Java updates.

You must also insure that when balloons appear on your computer screen that say “Java updates are available,” everyone who uses the computer ignores them.

The webpage gives detailed instructions for doing all this.

WebCT Vista cont.

If you cannot get this done yourself after a sincere effort, phone Distance Learning, 229-245-6490. They are open 8-5:30 Monday through Thursday and 8-3 on Fridays. Be at your computer and have it turned on when you call, so they can talk you through what needs to be done.

Library Support

An online guide for distance education students is on the Odum Library Web site at <http://www.valdosta.edu/library/services/distanceeducation.shtml>. Chat reference is available at <http://www.valdosta.edu/library/ask.shtml>.
