Hello Psyc Club Members,

I received emails and a lot of questions about signing on to Campus Connect. The computer may have been slow the day that you tried to log on, because I tried it this morning and it worked fine so go to this link:

<http://valdosta.collegiatelink.net/Community?action=getMyHome>,

then Login with your Blazenet username and password, in the top bar to find us type in Psychology Club and we will automatically begin to show as you start typing, and if you click MEMBERS on the right side of the screen you should see everyone there, and you should be there too.

This week Dr. Browne talked with us about Grad School, we talked about how you get in, where and how many schools you should apply for, and the tools needed to make a great application packet. Dr. Browne also suggested that if you needed him or Dr. Talor to review a professional statement or anything else that you have written for a Grad program, they would be more than happy to take a look at it for you and critique if need be. You can find information on what to do and what not to do on the Psyc Club website on Valdosta's site. The first presentation link tells you what you should do for getting in:

The second link tells you what you should not do in applying to grad school:

Upcoming Events:

March 9th: Career Services seminar

March 15th: Deadline for Registration if you are going to GPS Conference

March 26 and 27:- GPS Conference dates
